Summary

Full Stack Web Developer with a background in music and education with a lifelong dedication to learning. Effective at combining creativity and problem solving to develop user-friendly applications. Known among peers for strong work ethic and attention to detail no matter the complexity of the project.

Technical Skills

Skills: Fast learner, hardworking, reliable, excellent time management, creative thinker

Languages: HTML, CSS, JavaScript

Frameworks/Libraries: Bootstrap, React.js, Vue.js, jQuery, Node.js, Express, MongoDB, MySQL, Handlebars.js, GitHub, Version Control, Command Line, Slack

Projects

[MyGradeBook](#)

A user-friendly gradebook designed for teachers to share feedback and assignments with students

Worked with HTML, CSS, JavaScript, Node.js, Sequelize, and our own API's

As this was a team project, challenges included version control, naming conventions, and data structuring

[Hangman](#)

An online game built with JavaScript, HTML, and CSS

Faced multiple challenges including verifying user input against the word to guess and rendering/updating letter tiles during the game

Learned RegEx concepts and DOM manipulation

[FriendFinder](#)

An online questionnaire to connect users based on compatibility

Used MySQL to create a database to store users data and used JavaScript to match users to one another
